1. Soil Amendment Guarantees

Issue: How do states handle the guarantees for certain types of organic products such as potting mixes without divulging a company's proprietary formulas?

2. Soil Amendment Survey

Issue 1: Update the last Soil Amendment Survey in 1996 to identify which states have soil amendment laws.

Issue 2: How do we update the table annually for publication in the AAPFCO OP?

Attachments:

1. Soil Amendment Questionnaire
2. 1996 Soil Amendment Table

3. Update of the Uniform Soil Amendment Bill

Issue: The Uniform Soil Amendment Bill has not been updated in several years. Kenny Naylor has just revised his state's law and may provide insight into changes that would be beneficial to the AAPFCO model. The Subcommittee should decide if a revision would be a good idea and identify which sections need work.
