

**Board of Directors
2009-2010**

During the year, the Board handles the day-to-day business of the Association. The Board meets regularly at the annual meeting held each August and at a mid-year meeting usually held in February to consider issues of Association business. The current policy for the Board is to consider recommendations to change officially adopted documents only at the midyear meeting; however, the Board may consider such a proposal at the annual meeting if the change warrants. Proposals to change the Association's Officially Adopted Documents are presented to the Association membership for action at the Association's annual meeting.
